### A LITTLE NONSENSE.

The Meeting of an Englishman and an Irishman in New York.

An Englishman arriving in New York and being a stranger met an Irishman on the street and, approaching him, inquired the way to Wall street. The Irishman told him and was about to pass on when the Englishman said:

"Now, will you tell me how to get to Central park? I have heard so much about it in London."

The Irishman told him that also and was about to go when the Englishman stopped him again and said:

"Now, me good man, being as I am a stranger, I would like to ask one more question. Will you tell me how to get to the subway?"

The Irishman again informed him, and, being impressed with his manner and naturally curious, he asked whom he had the "honor" of addressing.

The Englishman answered:

"Why, I am the Hon. Lord Chancellor of London, England—Knight of the Garter, Knight of the Crown, Knight of the Fleece and Knight of the Bath—and now, pray tell me who you are, sir."

The Irishman dryly replied:

"Oh, I am Pat Muldoon of Hoboken—last night, tomorrow night, night before last and every other bloomin' night, sir."—Judge's Magazine of Fun.

What Could He Expect?

"See here," growled the patron in the cheap restaurant, "this coffee's cold!"

"Dat so?" retorted the polite and intelligent attendant. "Well, dis is a quick lunch joint, so if de coffee wuz hot yer couldn't drink it in a hurry."—Boston Transcript.

Not Locomotive.

Mrs. Goodkind—So you are an engineer and can't get a job in this town! Well, why don't you go to some other place?

Tattered Tom—I can't, madam. You see I'm a stationary engineer!—Woman's Home Companion.

Double Action.

Mr. Firstiter—I enjoy the opera for two things.

Miss Gurgle—What are they?

Mr. Firstiter—The music drowns the conversation and the conversation drowns the music.—Pick-Me-Up.

Disapproval.

"What are your impressions of America?"

"You are a downtrodden people," answered the European revolutionist. "You not only have laws, but you actually seem to enjoy obeying them!"—Washington Star.

Coerced.

Tess—So she's engaged to Mr. Polk. I wonder how he came to propose.

Jess—I don't believe he did come to do it, but she was determined not to let him go until he did.—Philadelphia Press.

Source of Supplies.

"I don't see why you women are always talking scandal," growled Biffkins. "We men never talk it."

"Of course not," snapped Mrs. Biffkins; "you simply furnish the material."—Chicago News.

At the House Party.

"Don't you think our hostess has very winning ways?"

"Yes, indeed," he replied forcefully, as he thought of the \$50 he had lost to her at bridge.—Lippincott's Magazine.

Between Friends.

Mabel—I am going to marry Mr. Hyer next month. He's a self made man.

Stella—Is that why he wants a tailor made wife?—Detroit Tribune.

Not a Flattering Attention.

"Who is that strange looking man who stares at me so much?"

"Why, that's Von Hamperdick, the eminent insanity expert."—Cleveland Plain Dealer.

Keeps Her Floor Talking.

She—Ent, Jack, you must not kiss me all the time!

He—It's the only way I can keep you quiet.—Yonkers Statesman.

### FOR THE LITTLE ONES.

Brief History of the President's Official Home.

When President Roosevelt assumed office he had the old and familiar name White House substituted for executive mansion on his official stationery, and his act was generally commended, says the Chicago News. The house was finished in 1800—at least it was first occupied in that year. It was built of freestone and was not painted.

When the British captured Washington in 1814 they burned the president's house, with other public buildings, leaving it a blackened ruin. It was rebuilt, the same walls being used, but they were so much discolored by smoke that General Jackson suggested that they be painted white, not only to improve their appearance, but in token of the successful defiance of the British by the American republic. And so the residence of the president has been familiarly known ever since by the unpretending name of the White House.

Back Hand Bean Bag.

After choosing an umpire the children stand in two lines, facing each other, within easy throwing distance. An end child starts the game by facing about and throwing the bag behind him toward the opposing line. If the bag can be caught by some child in that line, without leaving his place, it counts one point for the side throwing it. If, however, it falls to the ground before coming within catching distance it counts one against the throwing side. Should a "good bag" fail to be caught by the opposing side it counts one for the side throwing. The game is won by the side which first makes ten points or any number agreed upon.

Faithful Dog Honored.

A lady who recently came back from Europe tells about a dog belonging to the mayor of Nordlingen, in Germany, who surprised thieves in the act of robbing his master's house. The dog held one of the thieves by the trousers until he was captured. The mayor gave a banquet in honor of his faithful dog. The dog was crowned with laurel and seated upon a crimson velvet cushion and was served first with every course. Let us hope the mayor was careful to select only those dainties dear to doggie's hearts and their stomachs too. Otherwise the banquet might not have served its purpose of making glad a dog hero.

The Longest Days.

At Hamburg, Germany, the longest day occupies seventeen hours and the shortest seven. At Stockholm, in Sweden, the longest has eighteen and one-half hours and the shortest five and one-half. At St. Petersburg the longest has nineteen and the shortest five hours. In Finland the longest has twenty-one and one-half hours. In the northernmost parts of Norway the longest day lasts from May 21 to July 2, the sun not sinking below the horizon during this period, but skimming along very close to it in the north. At Spitzbergen the longest day lasts three and one-half months.

Why Soap Removes Grease.

"Soap, as everybody knows, is made of the oil of fat. Why, then, does it destroy or remove grease? The explanation is quite simple. Oil has a solid part, stearin, and a liquid part, olein. Stearin is not soluble in water, but when soda or potash is boiled with it, as is done when the soap is made, it loses its oily principle and is converted into an oxide of potassium, which is soluble in water.

A Clever Match Trick.

This trick requires ten matches, which must be laid out as shown in the accompanying illustration. The problem is: How can they be arranged into pairs, taking each of five matches in turn across two others? Number the matches from left to right in your mind and then solve as follows: 1 to 1, 6 to 2, 8 to 3, 10 to 7 and 2 to 5.

An Abduction.

"We'll have a coronation," said Sister Dorothy.

"We'll have a coronation Here in the nursery."

They set King Richard on the throne—King Richard, aged three.

They crowned him with a candle shade of silver filigree.

A scepter in his dimpled hand And royal robes had he.

And all his courtiers mother came And laid the crown and scepter down.

So for a space he sat in state Until his scepter mother came His kingdom for to rec.

Then from his throne descended King Richard, aged three.

And laid the crown and scepter down To sit on mother's lap!—St. Nicholas.

### Kentucky Potatoes.

Pare and thinly slice six large potatoes, wash and soak them for half an hour. Place in a baking dish, season with one scant teaspoonful of salt and one-third of a teaspoonful of white pepper; pour over them two-thirds of a pint of milk and bake in a hot oven until tender—about forty minutes. When half done add one-half to a tablespoonful of butter.

Cake Frosting Without Eggs.

Good frosting for cake can be made with milk instead of eggs. Take four tablespoonfuls of milk to a cupful of sugar and cook until the sirup spins a thread or forms a soft ball between the fingers when dropped in cold water. Then beat the sirup until it is thick and white. Maple sugar is particularly delicious prepared in this way.

To Clean Brooms.

To cleanse brooms may be rarely thought necessary, but washed occasionally they will be found to last far longer than otherwise. About once a week prepare a good lather of hot water and soap and into it dip the broom, shake it until it is nearly dry and hang it up with the bristles downward until quite dry.

To Remove Tint Stains.

Rub butter well into the tar and leave it on for an hour or two. Sponge then with kerosene. It will cut the tar. Coat with magnesia or French chalk and let it remain on long enough to draw out the grease—say, all night. Sponge with diluted household ammonia to complete the work.

To Keep Silk.

Articles of silk should not be kept folded in white paper, as the chloride of lime used in bleaching the paper sometimes destroys the color of the silk, more especially if it is of a delicate shade.

Blue, brown or a glossy, yellowish paper should be selected for this purpose.

To Dry Clean White Cashmere.

Heat some flour in the oven and rub this well into every soiled part of the material. Shake and brush afterward till all the flour is removed and repeat the process if necessary. If the cashmere is extremely dirty, it is best to send it to a professional cleaner.

Scalp Jelly Shampoo.

A shampoo that agrees with nearly every scalp and head is made by dissolving a cake of white castile soap in a quart of boiling water. This forms a jelly, and two tablespoonfuls in a basin of water will be right for each shampoo.

Remedy For Burns.

For a slight burn or scald apply olive oil or fresh butter or cover the burn with a cloth wrung from boiling water in which a piece of common washing soda has been dissolved.

Lime In the Cupboard.

For a damp closet or cupboard which is liable to cause mildew place in it a saucerful of quicklime, and it will not only absorb all dampness, but sweeten and disinfect the space.

Cure For Dandruff.

A dandruff cure is made of one dram of boracic acid and two and one-half ounces of cologne water. Apply to the scalp with the finger tips or sponge every other night.

## Santa Rosa and Its Surplus Relief Fund.

SANTA ROSA has a surplus of \$40,000 of the Earthquake Relief Fund contributed immediately after the great disaster by the charitably inclined from all parts of the country. Altogether in round numbers, \$60,000 was contributed, one-sixth of which, or \$10,000, was donated by Mr. W. S. Miller of this place, representing the Standard Oil Company. It seems amazing, but it is nevertheless true, that two-thirds of the fund is now going a-begging, and that, too, in face of the fact that almost the entire business portion of that city was reduced to a crumbling mass of debris by the earthquake of April 18th.

Unlike San Francisco, the business portion of the beautiful city of Santa Rosa was practically wiped out by the temblor and not by fire, as only a small portion of the ruins were burned after being released from the clutches of the quake. As a result very little insurance money was collected by the sufferers. This being case, it would seem to us an easy matter to place \$60,000 among the victims of the disaster. There were undoubtedly numbers of shopkeepers and others doing business in buildings owned by the rich who came out of the disaster all but ruined financially and who, without monetary assistance, will not be able to resume business. To all such, it would seem to us, that \$40,000 surplus could be put to no better use than to assist them to re-establish themselves in business. The original sum of \$60,000 was contributed for the relief of the sufferers from the disaster, and every cent of it should be so applied. If the committee having the placing of the fund will view the matter in the above light we are quite sure they will have no difficulty in worthily disposing of that \$40,000. They have no right to apply it toward the erection of a new Court House, as has been suggested in some of our county exchanges. That is a county matter, which has already been disposed of by the people authorizing a bond issue of \$280,000 for the restoration of county buildings destroyed in Santa Rosa. It were far better to return the surplus to the donors, as has been suggested by Judge Burnett, than to apply it to purposes other than intended by them. But why do that? San Francisco, out of the millions of relief money poured into her lap, is not worrying herself about returning any part of those funds, and why should Santa Rosa with its surplus of a few paltry thousands, for there is room a-plenty in that town to properly place it.

THE metropolitan papers are filled to overflowing these days with showy advertisements of all kinds of schemes to induce people of small means to put their money into them. There are electric railways that are to run over a hundred miles an hour, mining ventures that will net the investors all kinds of money and other alluring projects that will make millionaires of us all if we only put our hard-earned dollars into them. It may be that these ventures will turn out all that is claimed for them, but we doubt it. At the very best they are games of chance, and you play the other fellow's game at that. Nothing will be lost by letting them alone, while you take a big chance in going into them. These glittering propositions have sprung up like mushrooms ever since the fire insurance companies in paying their \$200,000,000 of losses in San Francisco has made money plentiful there. This being the case, it looks to us like these schemes are being floated to get easy money for some one.

A CABLE dispatch has been received at Harvard Observatory from Prof. Kreutz at Kiel saying that a comet, visible through a small telescope, was discovered by Holger Thiele at Copenhagen early Sunday morning in right ascension 9 hours 15 minutes 21.3 seconds, declination 12 degrees 16 minutes 50 seconds.

**\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80 PER PAIR**

Regular Price \$8.50 per pair. To introduce **4.80** We will sell you a Sample Pair for Only **4.80** (CASH WITH ORDER \$4.85) NO MORE TROUBLE FROM PUNCTURES. Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire. Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

**DESCRIPTION:** Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Hollow Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

**GOASTER-BRAKES,** built-up wheels, saddles, pedals, parts and repairs, and everything in the bicycle line in stock and for sale at half the usual prices charged by dealers and repair men. Write for our big SPINDY catalogue. **DO NOT WAIT** but write us a postal today. **DO NOT THINK OF BUYING A BICYCLE** or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.

## PETALUMA THUGS ATTACK SONOMA MAN

### T. A. Nufer Has Lively Scrimmage—His Assaultants Arrested.

T. A. Nufer, the veterinary surgeon, who has been temporarily sojourning in Petaluma off and on the past year, was set upon and assaulted by a gang of young toughs, one day last week. The assault took place in front of V. Reid's cigar store, Petaluma, and his assailants numbered five or six. Nufer defended himself with his fists and fought the gang back until the arrival of an officer upon the scene, who succeeded in placing two of them under arrest and lodging them in jail. The others made their escape. The day following the assault two more of the gang were arrested on warrants sworn out by Nufer and the quartette were haled before Judge Green. They pleaded guilty to a charge of simple assault and his honor fined three of them \$20 each or the alternative of going to jail for twenty days. The other tough, on account of his youth, was let off with a fine of \$10.

Nufer was badly bruised up in the encounter but fortunately escaped serious injury. His assailants have been arrested and fined on other occasions and have had reputations.

### Wm. H. Kerner Is Successfully Operated Upon.

Wm. H. Kerner, the proprietor of the "O. K.," who, with his family has been visiting relatives in Mount Clemens, Michigan, for several months, underwent a dangerous operation on the 20th of last month and for several days he hovered between life and death. Three surgeons from Detroit performed the operation, the removal of a tumor from his right side, which weighed one pound and three ounces.

Mr. Kerner at latest accounts had been pronounced out of danger but is still a very sick man.

It will be several months before Mr. Kerner and his family will return to their home here.

### The Y. M. I. Ball.

The twentieth annual ball of the Young Men's Institute, No. 45, of Sonoma, took place Thanksgiving eve at Union Hall, and, considering the inclemency of the weather, was largely attended. The music was all that could be desired by the most devoted of terpsichoreans while the floor was under the able management of J. Mellick assisted by W. J. Kearney. The grand march was led by Wm. J. Kearney and Miss Lettie Watt.

### Painful Accident.

Mrs. Geo. Engler met with a painful accident on Wednesday last. During the high wind which prevailed that day, a large flower pot on the front porch of the dwelling was picked up by the force of the gale and hurled violently against her. Mrs. Engler was knocked down by the impact and had her right hand badly sprained. The accident will deprive her of the use of the hand for some time.

## PERSONAL AND SOCIAL NOTES.

D. Modini was over from Petaluma Sunday.

Mrs. Alice Wagon was in San Francisco Monday.

Dr. G. C. Nichols was in town several days this week.

Mr. and Mrs. Carl Bundschu were Sonoma visitors to Santa Rosa and Petaluma Saturday.

Mr. and Mrs. H. Appleton spent several days in the metropolis the fore part of the week.

Mr. Theo. Richards, mine host of Agua Caliente Springs Hotel, was in Santa Rosa Saturday.

Mr. and Mrs. Bert Jones of Oakland were guests at the Toscano Hotel Thanksgiving Day.

Mr. and Mrs. Walter Barris are here from Kings county, and are guests at the Barris home.

Miss Amy Engler spent Thanksgiving day in Oakland, the guest of her brother, Capt. Engler.

Thomas Willett came up from San Francisco Monday for a short visit with his Sonoma friends.

Harry Francis of Boyes Springs was a well-known Sonoma Valley visitor to the metropolis Monday.

Clarence Cheney came up from San Francisco and spent Thanksgiving Day with his Sonoma relatives.

DeWitt Montgomery, superintendent of schools elect, returned from a short visit to the county seat Saturday.

Congressman Duncan E. McKinnay, accompanied by his son Colin, left for Washington, D. C., last Monday afternoon.

The Marzo brothers were up from San Francisco Sunday and spent the day with their parents Mr. and Mrs. Marzo of the Garibaldi Hotel.

Mr. and Mrs. Robt. Hall entertained at their home on Thanksgiving Day Mr. and Mrs. C. Johnson, Mr. and Miss Rufus, Mr. and Miss Knight.

Mrs. Palmer has been lying dangerously ill at her home on the Hayes ranch, south of town, the past week. She is under the care of Dr. Leix and she is now considered out of danger.

Adam Yenni of Highland Park, Sacramento, has been the guest of Mr. and Mrs. Peter Yenni this week. He was warmly greeted by his many friends here after an absence of over two years.

Mrs. Reidy was a passenger on the north-bound California Northwestern Monday evening en route to Ohm's Springs. Mrs. Reidy has but recently recovered from a very serious illness of several months duration.

### The State Senatorship

It is reported that Walter F. Price, deputy internal revenue collector for this district, and recently elected on the Republican ticket to the office of senator from Sonoma county, is ineligible to hold the latter office, and will not be allowed to take his seat. It appears that the law provides that no man holding a federal position carrying with it a salary exceeding \$500 per year shall be eligible to any State office. Mr. Price was, and is yet, as far as can be ascertained, a deputy internal revenue collector for the Fourth district, with headquarters in this city, and enjoying a salary in excess of the sum above named. When nominated for the State senate he failed to resign—Press-Democrat.

### Bruening's Bakery and Restaurant.

Having removed my bakery and restaurant from the old stand on the north side of the Plaza to the Dal Pogetto building on Napa street, I wish to thank my former customers for their patronage in the past and solicit a continuation of the same. In my new quarters I will be better prepared to cater to the wants of my old customers and any new ones that may favor me with their patronage. W. E. BRUENING.

### Drs. Barkan & Sewall,

Specialists for eye, ear, nose and throat, are now located at 1700 California street, corner Van Ness avenue, San Francisco.

## ANOTHER LOCAL RAILROAD DEAL.

### California Northwestern to Be Absorbed by S. P. and Santa Fe.

A San Francisco dispatch under date of November 26th says: "An important deal that involves the taking over of the California Northwestern railway and the San Francisco Northwestern railway by the Southern Pacific and the Santa Fe was completed Friday, when articles of incorporation of the Northwestern Pacific railway were taken out in this city.

It is the purpose of the two big roads to immediately complete the connecting link between Willits and Camp 5 that will enable passengers to travel direct by rail from San Francisco to Eureka.

The Northwestern Pacific railway is incorporated for \$1,000,000. Of this amount E. E. Calvin, general manager of the Southern Pacific, and Captain A. H. Payson, assistant to the president of the Santa Fe, each have \$480,000, while Wm. F. Herrin, chief counsel of the Southern Pacific, and E. S. Pillsbury, attorney for the Santa Fe, each have \$1,000, and I. W. Hellman, Jr., a like block of the stock.

The two big railroads have been planning this move for a long time. It has been the scheme of both Harriman and Ripley to take over the two smaller roads, incorporate them under a new name and build the connecting link between Willits and Camp 5, the present terminus of the San Francisco Northwestern.

### Frank Koenig Enters the Hotel Business

Frank Koenig, formerly one of the popular stewards of the Santa Rosa Lodge of Elks, has taken the Union Hotel at Sonoma and will conduct that hostelry in the future. Mr. and Mrs. Koenig were here Wednesday and departed on the afternoon train for Sonoma, taking possession of the hotel that evening. Mr. Koenig also takes over buildings connected with the hotel property. The hotel business is one in which Mr. Koenig should prove more than ordinarily successful, his geniality and his ability to make friends being valuable in the hotel business—Santa Rosa Republican.

### Cornelius to Box Knowles

Cornelius of Sebastopol will box six rounds in Santa Rosa next Thursday night for a purse of \$50, winner to take all. The bout will be a preliminary to the main event between Jim Hornbuckle and George Sullivan, heavyweights, who will fight twenty rounds. A large crowd of Cornelius' admirers in this place will take in the fight.

### Change of Railway Time

By the new time schedule the California Northwestern morning train going south leaves Sonoma for San Francisco and way stations at 6:28, instead of 6:18, as formerly. The afternoon southbound train now leaves Sonoma at 4 o'clock instead of at 3:38.

### Another Shake-up

J. Fochetti & Son are now prepared to sell you No. 19 Chilled Plows for \$8.50. All other Chilled Plows reduced according to sizes.

## My Hair is Extra Long

Feed your hair; nourish it; give it something to live on. Then it will stop falling, and will grow long and heavy. Ayer's Hair Vigor is the only genuine hair-food you can buy. It gives new life to the hair-bulbs. You save what hair you have, and get more, too. And it keeps the scalp clean and healthy.

The best kind of a testimonial—"Sold for over sixty years." Made by J. C. Ayer & Co., Lowell, Mass. Also manufacturers of Sarsaparilla, Pills, and Cherry Pectoral.

### Rural Telephone Company.

The Sonoma Rural Telephone company has extended its line westward as far as the L. L. Lewis ranch, four miles from town. This week the line is being extended eastward to the Filippini ranch, distant five or six miles from Sonoma. Parties desiring the service outside the limits of town are referred to either Geo. Engler or Jas F. Tate.

### Bean Guessing Contest.

In the bean guessing contest at Eastland's Model Pharmacy which closed Thanksgiving Day, Mrs. B. E. Darling was the winner, having guessed 4620, the number in the glass jar being 4621. The next nearest guesses were Mrs. George Brooks, 4618 and Miss Pearl Bailey, 4640.

### County Items.

Zoe Fairbanks Bell of Petaluma has been granted a divorce from Wellington Bell on the grounds of adultery.

The Hornbuckle-Sullivan scrap, which was to have come off in Santa Rosa on Thanksgiving night, has been postponed to next Thursday evening.

Walter Hunter, son of Superintendent W. J. Hunter of the California Northwestern, was married in Stockton on Wednesday of last week to Miss Agnes Ferguson of that city.

Aubrey Compton, out on bail on the charge of wronging Indian girl, has left the country, and his bondsmen, J. E. Maddux and B. F. McIntosh, will forfeit one hundred dollars. Compton went to Mexico it is said.

Mrs. Catherine Alton, wife of John Alton, committed suicide by taking carbolic acid last Tuesday. The cause of the rash act was despondency. The woman had been verging on insanity for some time.

Mrs. Henry Baker of Santa Rosa is confined to her bed in Sacramento by an injury that befell her last week. Mrs. Baker fell in alighting from a train and has since suffered great pain from the injury received. She was removed to Sacramento and her condition has prevented her being brought home since that time.

Jack Mess, the man who wounded John Morro, near Occidental, resulting in the death of the latter, is now in the county hospital, was sentenced Monday by Judge Seawell to the term of seven years in the penitentiary at San Quentin. The following day, however, owing to the prisoner's previous good record the Judge cut the sentence down to fourteen years.

Andrea Sbarboro, the well-known president of the Italian American bank in the metropolis, and secretary of the Swiss-Italian Agricultural colony in this county, has been awarded a gold medal by the Milano exposition for meritorious service rendered the country of his adoption. The medal was offered by the government to natives of Italy living in foreign lands, who, by industry, activity or genius, have rendered conspicuous services to the country in which they dwell and thus honored the country of their birth. Mr. Sbarboro is the only Italian-born American citizen to whom the gold medal was awarded.

### Windy Weather

The weather the past ten days has been windy and disagreeable, and our farmers have been considerably handicapped owing to the continued dry weather in getting in their crops.

### Sterilizing Milk

It is reported from Paris that Prof. Behring has discovered a new method of sterilizing milk, without boiling it or destroying any of its essential principles. The method is based on the powerful qualities of German perpydrol, simply oxygenated. One gramme per liter of this substance is sufficient to destroy all noxious germs. Milk thus sterilized can be kept a long time, and is not injured by transportation, but cannot be drunk until it has been gently warmed and a drop of acatalytic substance added. Dr. Behring has proved that light has a very harmful effect on milk, whether sterilized hot or cold, and he recommends that it should be kept in a dark place or in red or green bottles.

## ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

### The Union Hotel Changes Hands

Mr. Frank Koenig of Santa Rosa took possession of the Union Hotel last Wednesday, H. W. Gottenberg the former proprietor, retiring. Mr. and Mrs. Koenig are well-known throughout the county and are pleasant, agreeable and entertaining and we bespeak for the Union under their management a first-class hostelry in every particular.

### In Time of Peace

In the first few months of the Russian-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it is contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. Sold at Simmonds' Drug Store.

## WATER LILY SEEDS AS FOOD.

People who feed on water lilies have recently been made the subject of a special study by government scientists. They are a tribe of Indians, native to southern Oregon and dwelling at the eastern foot of the Cascade mountains. "Klamath," they call themselves, and their harvest of the food in question is obtained from a vast shallow area of fresh water, 10,000 acres of which are covered in the summer time with "woks," as the plant that furnishes the crop is named.

The plant is a great yellow water lily, known to botanists as *Nymphaea polypetala*, and it seems to have furnished a staple food of the Klamath in primitive times. Living, as they do, on a government reservation, they are less dependent upon the crop for food than in former days, but it is still regarded by them as a delicacy. Not the flowers themselves, but the seeds, are eaten, the seed pods being gathered in August by the women of the tribe, who use for the purpose queer looking dugout canoes, pushing the boats through the thickly growing lilies by means of poles. —Myerson's Magazine.

## Mr. Moody's Gallantry.

Attorney General Moody, was once riding on the platform of a Boston street car, standing next to the gate that protected passengers from cars coming on the other track. A Boston lady came to the door of the car and it stopped started toward the gate, which was hidden from her by the men standing before it.

"Other side, please, lady," said the conductor.

He was ignored as only a born and bred Bostonian can ignore a man. The lady took another step toward the gate.

"You must get off the other side," said the conductor.

"I wish to get off on this side," came the answer in tones that congealed the official into momentary silence. Before he could explain or expostulate Mr. Moody came to his assistance.

"Stand to one side, gentlemen," he remarked quietly. "The lady wishes to climb over the gate." —Cleveland Leader.

## The Upper Rhine.

At present the Rhine may be said to be navigable only to Mannheim, which town has in consequence become the greatest inland port in Germany, with an active transshipping traffic to southern Germany and Switzerland. The continuation of the Rhine regulation to Strassburg offers considerable difficulty, because the Rhine carries much detritus, which results in continual changes of the waterway. Until recently it was doubtful whether it would be possible to build a lasting channel, and it had therefore been suggested to build a canal parallel to the river. This scheme has, however, now been abandoned, and repeated and successful attempts have been made to navigate the Rhine between Strassburg and Basel, so that this part of the river will probably be made navigable. —London Engineer.

## Deaths and Births.

In practically all of the great countries of the world the birth rate is declining. It is a world movement, and, though France was a little earlier in revealing it than was any other great country, all of them are falling into line with her. Coincidentally, however, with the falling in the birth rate is a decline in the deaths, which may preserve the equilibrium in population, as it evidently does in France, where the total of inhabitants remains virtually stationary. Coincidentally, moreover, with the shrinkage in births comes an increase in the food supply of the world. If Malthus were here in 1906 he would be compelled to revise his notions about the increasing pressure of population on the means of subsistence. —St. Louis Globe-Democrat.

## Mr. Fugit.

Professor Wiley, the chemist of the department of agriculture, recently went to a Washington store for the purpose of purchasing a fountain pen. The obliging young man at the counter furnished the professor with a sheet of paper, a bottle of ink and several of the fountain pens, so that he might try each kind. In doing so the professor soon covered the sheet with the words "tempus fugit," the clerk looking on the while with kindly interest.

"If you should buy one and it doesn't suit you, Mr. Fugit," said he, "you can bring it back and take another."

Helpful Suggestive the Art of Carving.

Good carving is necessary as a matter of economy as well as health. Meat carved the wrong way will be found stringy and tough, but carved the right way it will be easy to digest. Beef should be cut thin, mutton thick. In sirloin the under cut is considered the most delicate part and is eaten first, so that the joint must be turned over to be cut. Ox tongue should be commenced in the thickest part in the center and sliced not too thin. Hams should also be cut in the middle. A saddle of mutton should be cut down the length of the joint. When carving the loin of pork, mutton or veal, insert the knife in the thickest end of the meat and feel your way between the bones. In cutting ribs of beef the knife should be first inserted at the bottom and run between the meat and the bone. Then the slice will come away better.

## Air the Bedrooms.

On rising in the morning see that a full current of air can pass through every sleeping room. Remove all clothes from the beds and allow them to air at least an hour. Only in this way can one be sure that the impurities thrown off from even the cleanest body by the pores during the night are carried off. A neat housekeeper often is tempted to make beds or have them made almost at once, but no practice can be more unwholesome.

## Be Charitable

To your horses as well as to yourself. You need not suffer from pain of any sort, your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Bakersfield, Mo. writes: "I have used your liniment for years and find it the best I have ever used for a pain or heat."

## Keeping Lemons Fresh.

Lemons should always be well washed in warm water before they are grated or if the peel is to be used. On close inspection it will be found that the outside of a lemon is anything but clean. To keep lemons from drying up put them in a jar and cover them well with cold water. Change the water every three or four days and the lemons will keep ripe and juicy for a month.

## Improving Nails.

For improving nails, remove the shoe and stocking; put a piece of paper under the foot; heat a spoonful of tallow and pour it in and around the nail once or twice a day until relief comes, which will be in a few days. If you haven't the mutton tallow, lard will do or any kind of fat and just as hot as can be borne.

## Banana Salad.

Have equal proportions of orange pulp and bananas cut into dice and grapes cut in two and the seeds removed. Sweeten to taste. Serve in orange cups made from half of the orange skins from which the pulp was taken.

## Sells More of Chamberlain's Cough Remedy than All Others Put Together.

The following letter from a locality where Chamberlain's Cough Remedy is well known shows by the unprecedented demand for it that the medicine sells on its own merit. Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves all put together. Of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results."

## Testing Woolens.

In testing a piece of cloth to see if it is a cotton mixture cut a small piece off and put a match to it. If it is all wool it will only singe, but if cotton is there it will flare up.

## For Tired Feet.

Put a handful of common salt into four quarts of hot water, and while it is as hot as can be borne place the feet in it. Afterward rub well with a rough towel.

## To Keep Paint Fresh.

To keep an open pail of paint fresh stir well to dissolve all the oil, then fill up the pail with water. When the paint is again needed for use pour off the water.

## There is no Reason

why your baby should be thin and fretful during the night. Worms are the cause of this, sickly babies. It is natural that a healthy baby should be fat and sleep well. If your baby does not retain its food, don't experiment with colic cures and other medicine, but try a bottle of White's Cream Vermine and you will soon see your baby have color and laugh as it should.

Points to Remember When Preparing Pickles.

Vinegar used for pickling must be of the best, whether cider, white wine or grain vinegar. Never boil it longer than five or six minutes, unless you wish to reduce its strength.

Brass, copper or tin vessels should not be used in preparing pickles, as the action of the acid on these metals frequently results in producing poison in pickles. The glaze of common earthenware is also affected by the action of the vinegar. Use vessels of porcelain or granite ware for the cooking process and glass or stone ware jars for filling them.

When the jars are filled the vinegar must completely cover the vegetables or fruit. Tie the spices up in muslin bags unless whole spices are used. To give the bright yellow coloring to the mustard pickles, corn relish, etc., an Indian saffron called turmeric is used.

A very small quantity of alum will aid in making the pickles firm and crisp, but the use of alum is an objection.

Green grape or green cabbage leaves placed between layers of cucumbers while they are heating will green them.

## The Cures of China.

If china is decorated with gold it should never be washed with soap, as it has a dulling effect and after a time causes the gilt to rub off. Hot water does no harm. It is better soft, and, if no rain water be handy, it is an easy matter to boil it well, then reduce it to the proper temperature. The softer the drying cloth the better. Use it the moment the articles are out of the water. To rinse in cold water is to retard the drying. Besides, many cracks are due to the sudden plunge from hot to cold water.

## Cooking Game.

There is quite a difference in quality and flavor of wild ducks. The canvasback and redhead ducks are always best cooked without stuffing. It seems a pity to stuff these fine birds.

Mallards, teal, widgeons and wood ducks may be stuffed with rice, hominy or potatoes nicely seasoned with chopped English walnuts. Canvasbacks and redheads are vegetable eaters; hence the flavor is sweet.

## Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup. Such a man exists.

"Mr. J. C. Clark, Denver, Colorado writes: 'For years I was troubled with a severe cough that would last all winter. This cough would leave me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me.' For sale at Simmons' Drug Store."

## Cleeting Gums.

Where there is bleeding of the gums table salt is good. It may be gently rubbed into the gums or a little used on the brush. Camphor is also a good thing to use where the gums are not very firm, and a good powder that can be put up by any druggist is made of half an ounce of gum camphor, two and one-half ounces precipitated chalk and one and one-half ounces of pulverized orris root.

## In Case of Accident.

In every household should be a bottle of linseed oil and linseed oil, together with a roll of absorbent cotton and pieces and strips of old linen for bandages, all in a convenient place to use in case of burns.

## Chamberlain's Pain Balm

There is no danger from blood poisoning resulting from a cut or wound of any kind, when Chamberlain's Pain Balm is used. It is an antiseptic and should be in every household. For sale by L. S. Simmons, druggist.
